II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

Montana distributed SFSF funding as part of the state funding formula. Distributions were deposited in LEA general funds. LEAs used the SFSF funding to support all general fund operations of the district, including instruction, administration, etc.

Please update for the new timeframe:

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$35,791,346.89
Contracts for construction, modernization, renovation, or repair projects:	\$93,751.04
Other:	\$887,676.04

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

Public IHE's in the Montana University System (MUS) have used Education Stabilization funding to cover shortfalls in operating budgets and to mitigate the need to increase tuition. Specifically, Education Stabilizations funds were used to fill budget shortfalls by replacing gaps in current unrestricted funds associated with personal services. As a result, the Montana Board of Regents (the MUS governing board) was able to greatly reduce the need for tuition increases. In fact, tuition levels were frozen in FY10 and FY11 at all two-year campuses and smaller 4-year colleges, with only modest increases of 3% per year adopted at Montana's two larger doctoral research universities.

Please update for the new timeframe:

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$9,197,345.00
Student financial assistance:	\$0.00

Contracts for modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$9,197,345.00

II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The Montana University System utilized GSF funds to offset budget shortfalls and mitigate the need to increase student tuition. These funds were integrated into the University System's current unrestricted operating budgets and supplied needed funding to retain faculty, classified staff, and administrative positions. The Department of Corrections utilized GSF funds to maintain over 28 direct care positions, such as correctional officers, located throughout the state. The Department of Public Health and Human Services: Through the Libby Asbestos Medical Program (LAMP), funds are being used to provide healthcare services for individuals who either have no public or private healthcare benefits, or whose healthcare benefits do not cover all the costs of healthcare services for their illness. Funds are also used by the Asbestos Related Disease Network (ARDnet) in Libby to provide in-home assistance for individuals diagnosed with a disease associated with asbestos exposure. As of Sept 30, 2010, \$629,446.90 has been spent by the two funded programs and 1,293 individuals have been served. Of that total \$246,003.47 was used by ARDnet to provide in-home assistance, \$323,100.04 was spent on healthcare claims through LAMP and \$60,343.39 was used for salaries and claim administration fees. The Aging Services programs have used ARRA funds to cover the costs under the Homemaker program, expanded the Caregiver/Respite program, maintain the Senior Companion Program., serve additional clients under the outreach program and help maintain the numbers served under Congregate and Home Delivered Meals. As of September 30, 2010 38,273 clients/recipients have been served using ARRA funds. State Building energy related modernization: Current projects include Missoula DNRC building lighting upgrades, Bozeman job service energy improvements, Riverside Youth Correctional Facility, Montana State Hospital Xanthopolous building ventilation and campus energy upgrade, and Walt Sullivan building energy improvements.

Please update for the new timeframe:

Public Safety: In the Montana Department of Corrections, General Government Stabilization funds were used to retain positions that would otherwise not be staffed due to a required vacancy savings rate. Only direct care correctional staff at the following facilities are impacted by these funds: Montana State Prison, Montana Women's Prison, Montana Youth Transition Center, Riverside Youth Correctional Facility, Pine Hills Youth Correctional facility, and Treasure State Correctional Training Center. Public Institutions of Higher Education: In the Montana University System, General Government Stabilization dollars were allocated to reduce budget shortfalls and mitigate the need to increase tuition. As a result, the number of jobs created/retained for higher education primarily relate to the retention of jobs at the 8 campuses within the Montana University System (MUS) and the three community colleges. The stimulus funds supported job retention of faculty, classified staff, and administrative professional position. Public Assistance: ARRA funds have been utilized to retain respite workers, assistance techs, case managers, outreach workers, a senior center director, personal care aides, a cook, a long term care ombudsman and to hire two new part time information techs. State Building Modernization and

Repair: Five percent of the total General Government Stabilization award is being used for energy related upgrades for modernization and repair of electrical and mechanical systems within state owned buildings.

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	\$0.00
Construction, modernization, renovation, or repair of public school facilities:	\$0.00
Modernization, renovation, or repair of public IHE facilities:	\$0.00
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	\$2,331,371.00

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

The Montana Board of Regents (the MUS governing board) froze tuition levels in FY10 and FY11 at all two-year campuses and smaller 4-year colleges in the Montana University System and allowed only modest increases of 3% per year at Montana's two larger doctoral research universities.

Please update for the new timeframe:

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

The State of Montana received \$148,689,792 of combined general government and education stabilization funds through the State Fiscal Stabilization Fund (SFSF) program authorized by the American Reinvestment and Recovery Act (ARRA). The state received hundreds of millions of dollars in addition to SFSF funds as result of ARRA. Since Montana's 61st Legislature was in session when ARRA became law, the legislature had the ability to adjust program funding across state government to accommodate the additional federal funds. In some cases the infusion of additional federal funds into existing state programs resulted in lower state general fund obligations for the same purpose. The resulting state funds that were no longer required to maintain support for programs like direct state aid for K-12 education were appropriated by the legislature for other purposes like state funded infrastructure projects. The Governor's Office has no reliable way to estimate how the state legislature would have appropriated state funds in the absence of ARRA or specifically SFSF funding. Without knowing for certain the level of funding the 61st Legislature would have provided for K-12 education or higher education in the 2011 biennium, we cannot begin to estimate whether local property taxes or tuition for higher education would have increased in the absence of SFSF funding.

Please update for the new timeframe:

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

The Office of Public Instruction posts information on the number and percentage of core academic courses taught, in the highest and lowest poverty schools, by teachers who are highly qualified consistent with section 910(23) of the Elementary and Secondary Education Act of 1965, as amended. The information is an integral component of Montana's NCLB Report Card and is posted at http://www.opi.mt.gov/Reports&Data/index.html?gpm=1_9. The State's Teacher Equity Plan reflects the steps the State is currently taking to ensure that students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified or out-of-field teachers. The plan is posted at <http://opi.mt.gov/Accred/HQT.html>. In August 2010, the Office of Public Instruction opened up a survey collection tool for districts to describe the systems used to evaluate the performance of teachers and principals. The survey tool will gather the information needed to respond to SFSF Descriptors (a)(1) and (a)(2) and Indicators (a)(3), (a)(4), (a)(5), (a)(6) and (a)(7). The survey responses for each school system are posted on the OPI website at <http://www.opi.mt.gov/pub/index.php?dir=PrincipalTeacherEvaluation/>
